

Canadians are divided on the importance of Canada having a seat on the UN Security Council

National survey released July, 2020

Project 2020-1676C

THE GLOBE AND MAIL 

 **NANOS**

Canadians are split on how important it is for Canada to have a seat on the UN Security Council, with residents of the Prairies and men being the most likely to say this is unimportant and Quebec residents most likely to say Canada having a seat is important.

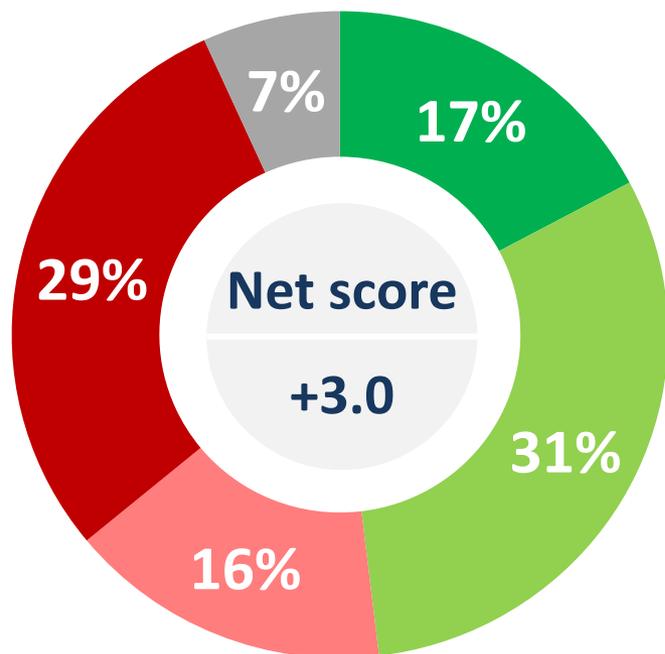

Quebec residents are most likely to say Canada having a seat on the UN Security Council is important, while Prairies residents are most likely to say this is unimportant

- **Canadians are divided on the importance of Canada having a seat on the UN Security Council** – Just under one in two Canadians say it is important (17%) or somewhat important (31%) for Canada to have a seat on the UN Security Council, while more than four in ten say this is unimportant (29%) or somewhat unimportant (16%). Seven per cent are unsure.
- **Quebec residents are more likely to say that Canada having a seat on the UN Security Council is important; Prairies residents are more likely to say this is unimportant** – Residents of Quebec are more likely to say this is important (25%) than residents of the Prairies (15%), Ontario (15%) and British Columbia (12%). Residents of the Prairies are more likely to say this is unimportant (47%) than residents of British Columbia (36%), Ontario (30%), Atlantic Canada (16%) and Quebec (13%). Men are nearly twice as likely to say Canada having a seat on the UN Security Council is unimportant (41%) than women (18%).

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,049 Canadians, 18 years of age or older, between June 28th and July 2nd, 2020 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The margin of error for this survey is ± 3.1 percentage points, 19 times out of 20.

This study was commissioned by the Globe and Mail and the research was conducted by Nanos Research.

Importance of a seat on the United Nations Security Council

■ Important
■ Somewhat unimportant
■ Unsure
■ Somewhat important
■ Unimportant

	Important/ Somewhat important
Atlantic (n=100)	49.6%
Quebec (n=252)	60.6%
Ontario (n=339)	47.4%
Prairies (n=203)	36.6%
British Columbia (n=155)	43.3%
Male (n=555)	39.4%
Female (n=494)	56.4%
18 to 34 (n=270)	52.0%
35 to 54 (n=393)	49.2%
55 plus (n=386)	44.4%

*Weighted to the true population proportion.
 *Charts may not add up to 100 due to rounding.

QUESTION – Canada campaigned internationally for five years to win a seat on the United Nations Security Council, but was unsuccessful. How important or unimportant is it that Canada have a seat on the UN Security Council

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,049 Canadians, 18 years of age or older, between June 28th and July 2nd, 2020 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for this survey is ± 3.1 percentage points, 19 times out of 20.

This is one (1) report of four (4).

This study was commissioned by the Globe and Mail and the research was conducted by Nanos Research.

Note: Charts may not add up to 100 due to rounding.

Element	Description
Research sponsor	The Globe and Mail
Population and Final Sample Size	1,049 Randomly selected individuals.
Source of Sample	Nanos Hybrid Probability Panel (confirm with John)
Type of Sample	Probability
Margin of Error	±3.1 percentage points, 19 times out of 20.
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada.
Demographics (Captured)	Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography.
Fieldwork/Validation	Individuals were recruited using live interviews with live supervision to validate work, the research questions were administered online
Number of Calls	Maximum of five call backs to those recruited.
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.
Field Dates	June 28 th to July 2 nd , 2020.
Language of Survey	The survey was conducted in both English and French.
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. https://canadianresearchinsightscouncil.ca/standards/

Element	Description
Weighting of Data	The results were weighted by age and gender using the latest Census information (2016) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure
Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Stratification	By age and gender using the latest Census information (2016) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample.
Estimated Response Rate	11 percent, consistent with industry norms.
Question Order	This was the only question asked on this topic.
Question Content	Topics on the omnibus ahead of the survey content included: views on political issues, views on economic issues, real estate, China and COVID-19.
Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
